

Mercury Regulation Reporters

Cc: Jenny-Johanna Green (DG ENV)

13/12/2019

Notification: Opening of the reporting – Mercury Regulation Deadline for reports 31 January 2020

Dear colleagues,

We write to you in relation to the reporting under Regulation (EU) 2017/852, on mercury and its implementing acts. The EEA has assisted the European Commission in putting in place electronic reporting tools to cover the various reporting elements of said pieces of EU-law.

Opening of the reporting and deadline

The reporting tools are now ready in the EEA's reporting platform, the so-called Central Data Repository (CDR) at: <https://cdr.eionet.europa.eu/>

Reporters must use their own credentials (the so-called Eionet account) that were provided shortly after their nomination by their countries. You can also reset your credentials here: <https://www.eionet.europa.eu/password-reset>

Please note that the European Commission has recently extended the deadline for reporting to 31 January 2020. Their letter [is accessible here](#).

Manual for reporting

Detailed instructions are available in the [Manual for the use of the tools](#). Additional resources on this reporting are available in our help page at: <https://cdr.eionet.europa.eu/help/mercury>

Support by EEA

The project manager in charge of the reporting obligations is Federico Antognazza. Please contact him, for any query you may have, at: mercury.helpdesk@eionet.europa.eu

We are looking forward to this reporting round and the upcoming collaboration.

Yours sincerely,

Daniel Montalvo

Head of Group – Sustainable resource use and industry
