

Ms Catherine Day
DG Environment
European Commission
B-1049 Brussels – Belgium

Subject: Finland's annual greenhouse gas inventory submission to the European Commission in accordance with Decision 280/2004/EC.

Dear Ms Day,

Please find attached a CD containing the first draft of Finland's 2010 greenhouse gas inventory under the UNFCCC and the Kyoto Protocol. The submission has also been sent to the European Environmental Agency (EEA) using the ReportNet tool.

The submission consists of Finland's National Inventory Report: *Greenhouse Gas Emissions in Finland 1990 - 2008* Common Reporting Tables (CRF Tables) and information on indicators and methods used for key categories in the EC inventory. The Standard Electronic Tables (SEF) have been included in the submission. The SEF tables provide information on the quantities of Kyoto Protocol units in the national registry as of 1 January 2010.

Yours sincerely,

Riitta Pipatti,
Head of the Greenhouse Gas Inventory Unit,
Statistics Finland
