

The background image shows a coastal scene at dusk or dawn. On the left, there is a stone wall with a small, domed tower. The wall extends into the sea. The beach is sandy and stretches across the foreground. The sea is calm with a few small boats visible in the distance. The sky is a mix of blue and orange hues.

Reporting Obligations

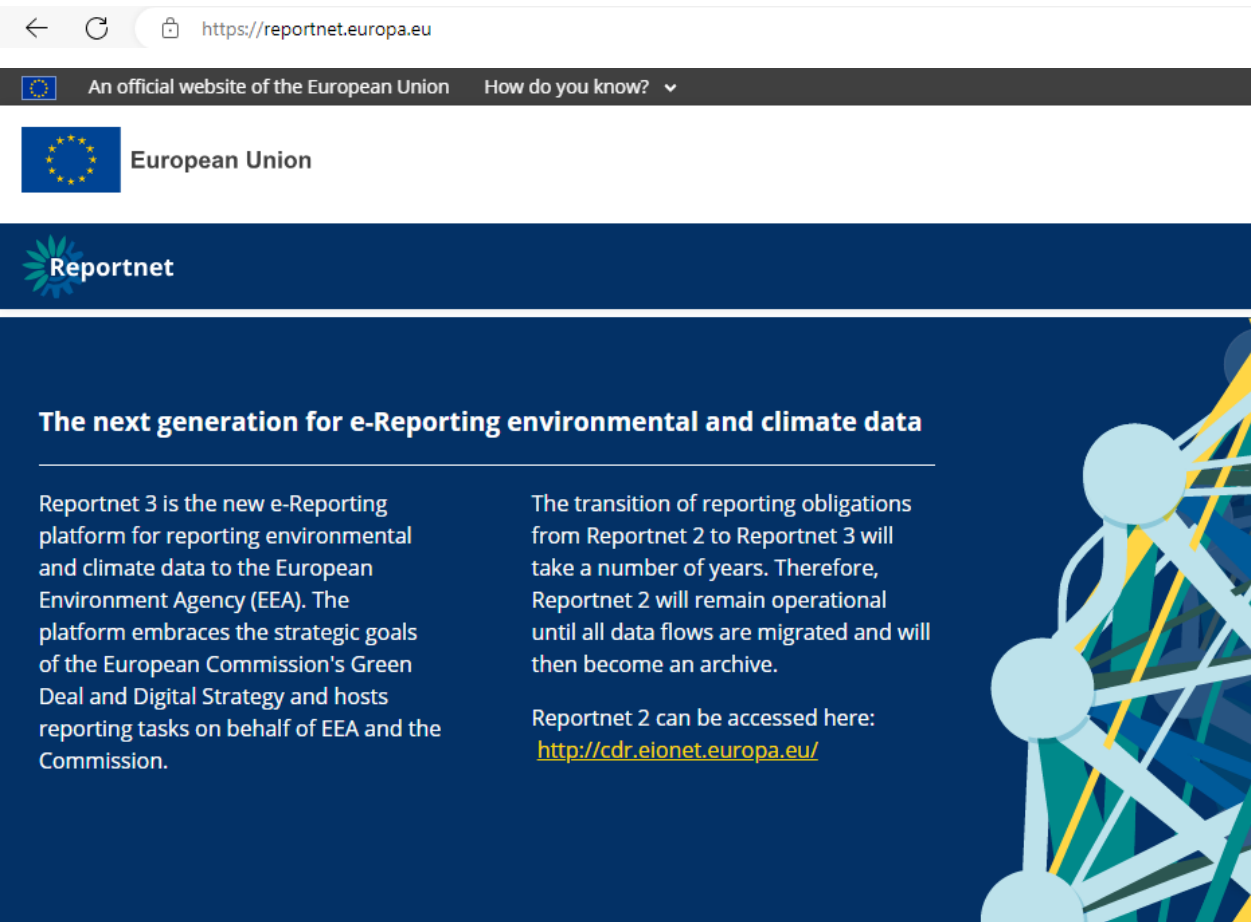

- **MSFD Article 11 – Monitoring Programmes**

- ROD: <https://rod.eionet.europa.eu/obligations/611>
- *Member States shall establish and implement coordinated monitoring programmes for the ongoing assessment of the environmental status of their marine waters that are compatible within marine regions or subregions.*
- Next report due: **15/10/2026**

- **MSFD Article 7 – Competent Authorities**

- ROD: <https://rod.eionet.europa.eu/obligations/607>
- *Member States shall provide the Commission with a list of the competent authorities designated for each marine region or subregion concerned, together with a list of their competent authorities as regards those international bodies in which they participate and which are relevant for the implementation of this Directive.*
- Next report due: **Continuous reporting**

Reportnet 3 – Reporting platform

Validations	MSCACode	CompetentAuthorityName	CompetentAuthorityNameNL	Acronym	Street	City	CityNL	Country
-------------	----------	------------------------	--------------------------	---------	--------	------	--------	---------

MSFD Article 7 data content

Field name	Description	Type of Information
MSCACode*	A unique EU code for the Competent Authority (CA), created by taking the two-letter ISO Country code followed by the Member State unique identification code (up to 42 characters in total) – e.g. DKMSCA1.	Required
CompetentAuthorityName	Official name of the CA in English.	Required
CompetentAuthorityNameNL	Official name of the CA in national language.	Optional
Acronym	Acronym for the CA (if it exists).	Optional
Street	Street address of CA.	Required
City	City address of CA in English.	Required
CityNL	Name of city (head office of the CA) in national language.	Optional
Postcode	Postcode of CA.	Required
Country	Country of CA in English.	Required

** MSCACode is the international code which shall follow a specific structure – a QC rule was implemented with the required syntax.*

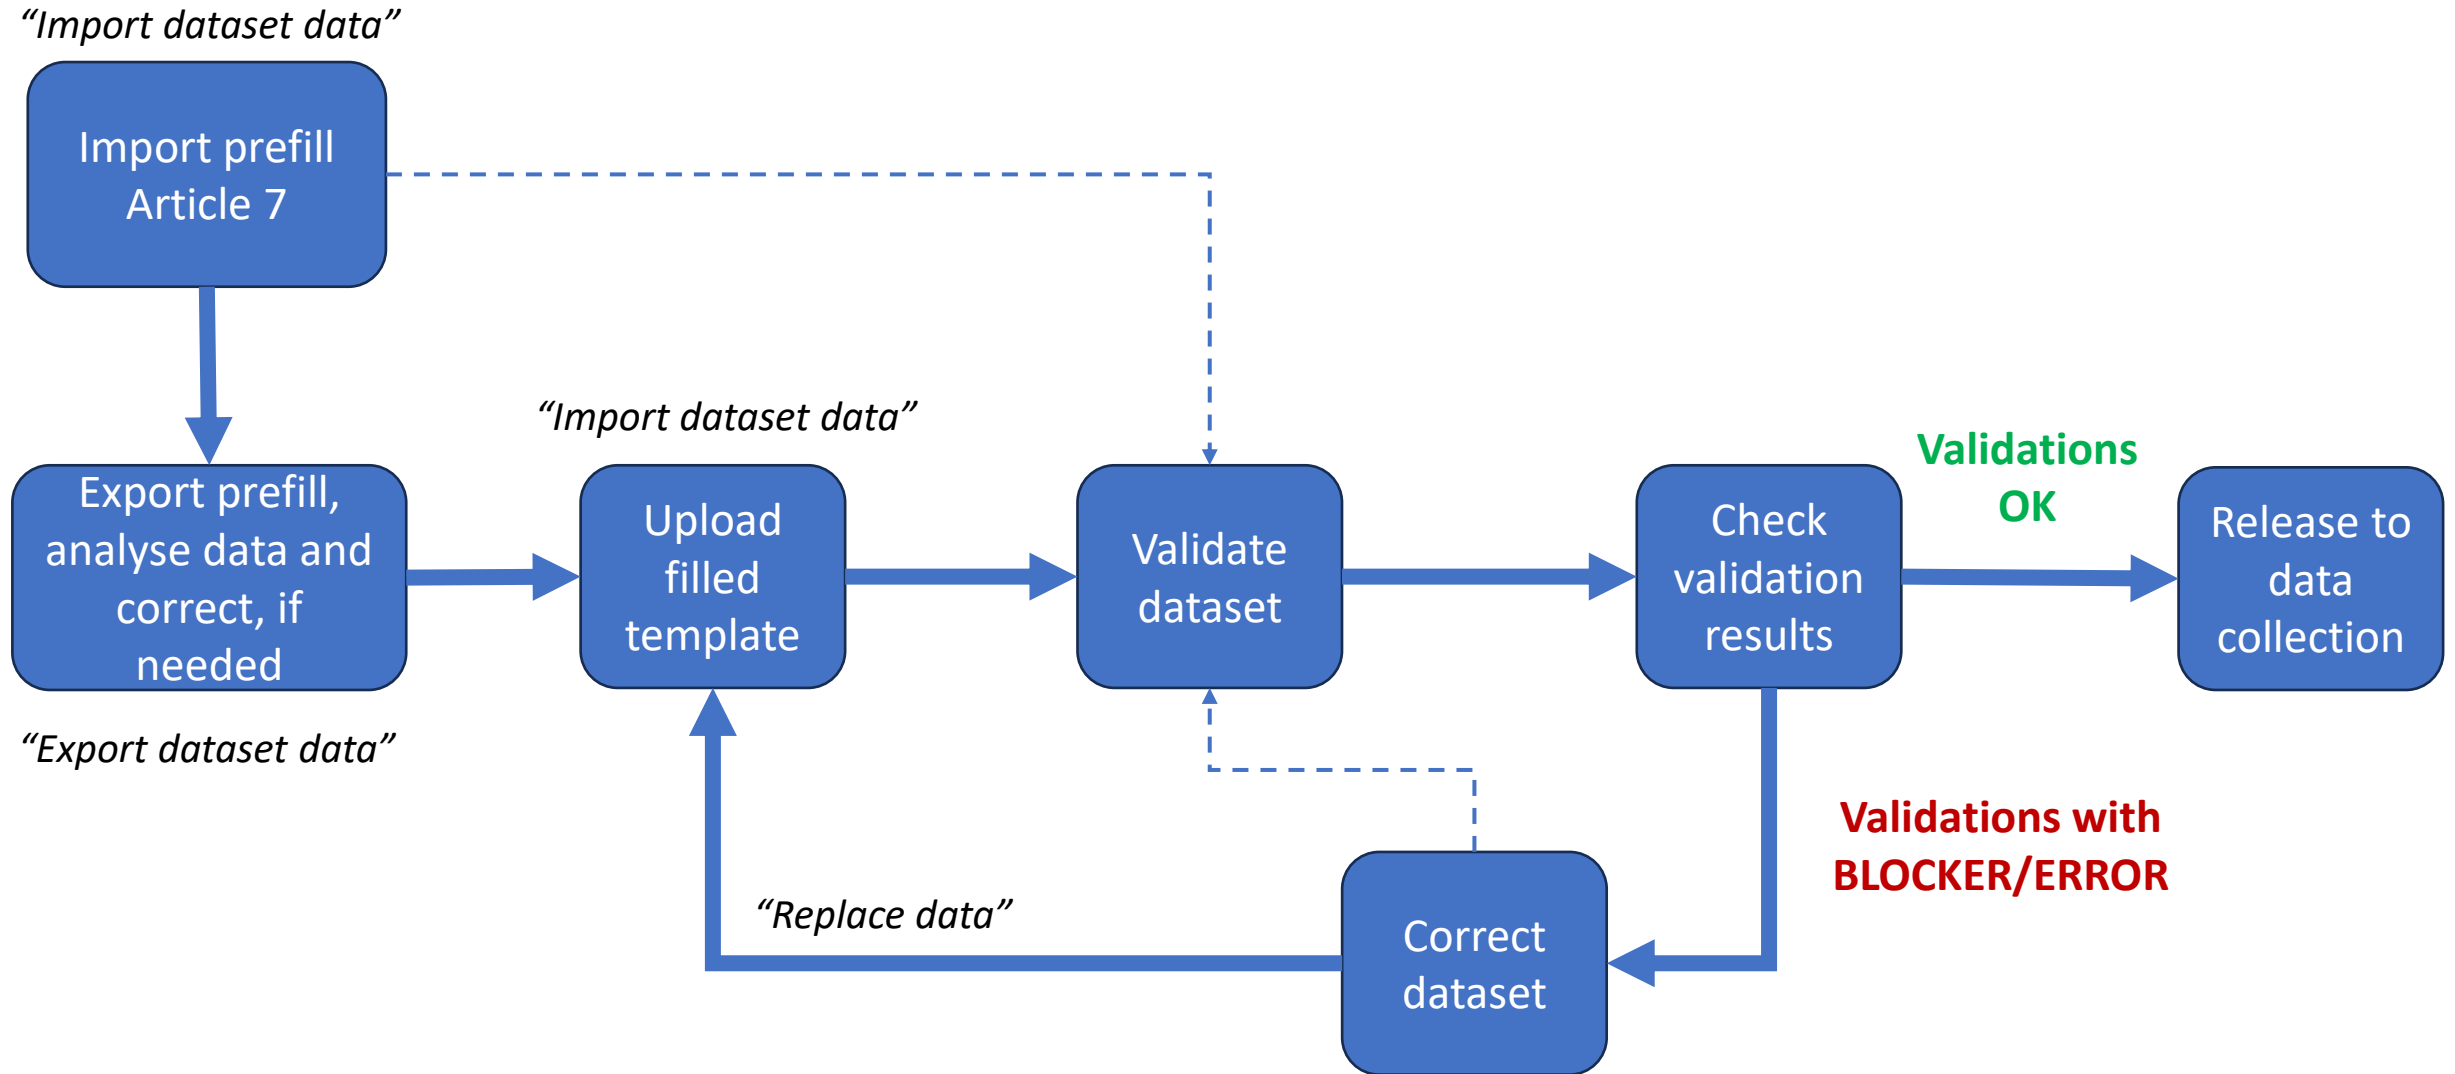

MSFD Article 7 data content

Field name	Description	Type of Information
URL	Website address of the CA.	Required
LegalStatus	Summary text of the legal status of each CA. This should include a brief description of the legal status of the competent authority, or authorities.	Required
Reference	Hyperlink (or reference) to statute, founding treaty or equivalent legal document.	Required
Responsibilities	Summary text of the institutional responsibilities of the CA with a brief description of the legal and administrative responsibilities of the competent authority or authorities and of its role in relation to the marine waters concerned. Where several CA are designated, state clearly the particular responsibility of each, such as their geographical remit and/or responsibilities for particular aspects of the Directive.	Required
Membership	Summary text of the institutional membership, when the competent authority or authorities acts as a coordinating body for other component authorities, a list of these is required together with a summary of the institutional relationships established in order to ensure coordination.	Required
RegionalCoordination	Summary text for regional or sub-regional coordination with a summary of the mechanisms established in order to ensure coordination between Member States whose marine waters fall within the same marine region or sub-region.	Required

MSFD Article 7 data content

- Possible to report multiple competent authorities – one per row
- Field “Auth_CD”, optional field that corresponded to a unique national code for the competent authority, was removed from the data model.
- Note on data in MSFD database:
 - The guidance (from 1st cycle) for Article 7 field population **has not been consistently followed** across Member States
 - **Inconsistencies** remain in how Article 7 fields are populated
 - Further efforts are required to **ensure uniform application** of the Article 7 data field guidance among all Member States
- New Reportnet 3 dataflow:
 - ✓ **MS are required to confirm or correct the data**, and release updated list of competent authorities.
 - ✓ Re-delivering the data will **ensure consistency and harmonisation**, as Reportnet 3 applies automatic quality control rules and enables structured technical feedback.
 - ✓ An EEA **step-by-step manual** with guidelines and procedure on how to report Article 7 data is being developed and will be available before the end of 2025.

MSFD Article 7 data – Questions

1. Do MS agree on removing field “Auth_CD” from the data model?
 - Optional field that corresponded to a unique national code for the competent authority.

2. EEA will create a step-by-step manual with guidelines and procedure on how to report Article 7 data and which will be available by the end of the year.
 - Do Member States consider that the development of a formal EC MSFD Guidance Document for Article 7 reporting would be beneficial?

Main steps for reporting on MSFD Article 11 data

GENERAL GUIDE

✓ Analyse Reference Lists

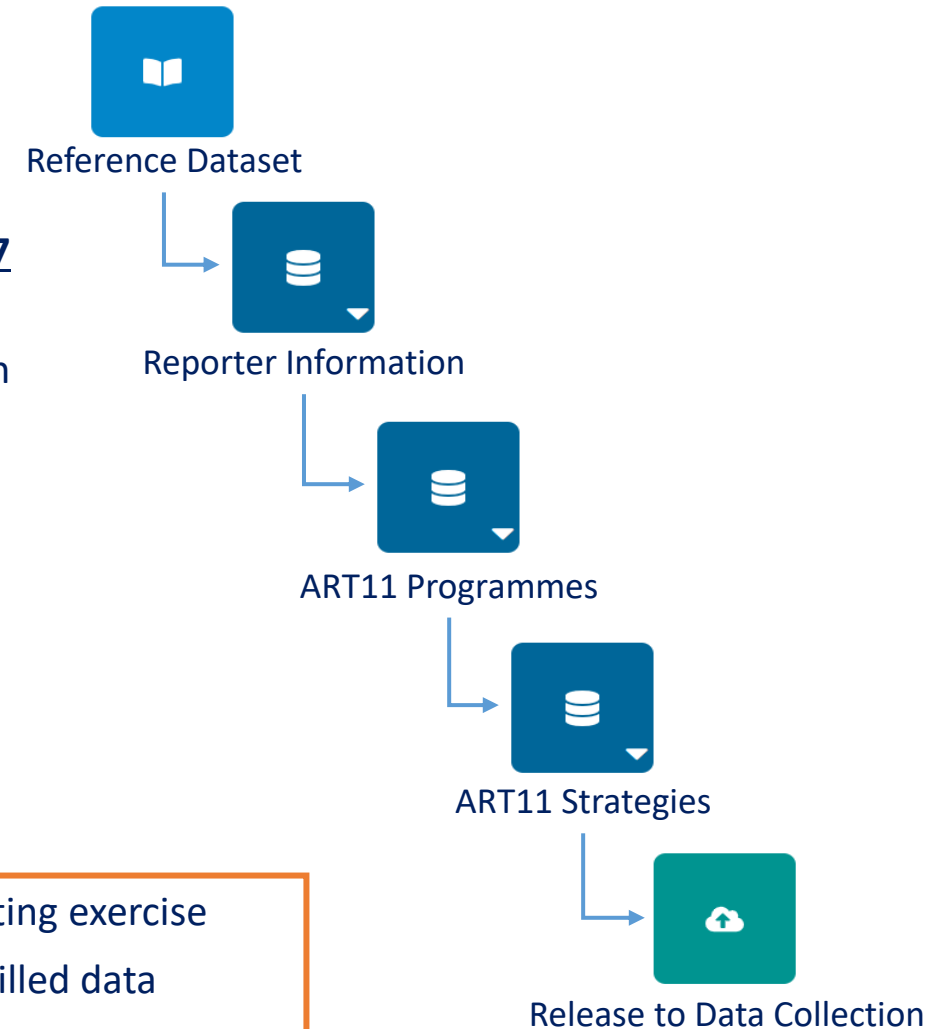

- Confirm, correct or update the list of competent authorities using [MSFD Article 7 Competent Authorities dataflow](#) in Reportnet 3.
- If necessary, update or deliver [Marine Reporting Units via Article 4 dataflow](#) in Reportnet 3.
- For all other codes, contact [MSFD Helpdesk](#) for updates.

✓ Populate/modify tables in order *(Note that the reference lists' codes may require update)*

- Populate the "Reporter Information" data schema
- Populate/modify "Art11_Programmes"
- Populate/modify "Art11_Strategies"

✓ Release data collection

- Import prefilling from 2020 reporting exercise
- Export populated tables with prefilled data
- Import dataset prepared outside the tool
- Run validations
- Correct issues ("blockers", "errors" or "warnings")

Steps for Reporting MSFD Article 11 - Data

➤ **Check Reference Lists**

- Confirm, correct or update the list of competent authorities using the [MSFD Article 7 Competent Authorities dataflow](#) in Reportnet 3.
- If needed, update or deliver [Marine Reporting Units](#) via the [Article 4 dataflow](#) in Reportnet 3.
- For any other codes, contact the [MSFD Helpdesk](#) for updates.

Steps for Reporting MSFD Article 11 - Data

Suggested workflow to populate/modify tables in the specific order for Article 11

- 1) Import prefilling from 2020 reporting exercise
- 2) Export to Excel file the prefilling data imported through R3
- 3) Work locally on the dataset; It is important to keep the downloaded format, headers and to only edit fields' content
- 4) Import *.xlsx file with the updated dataset
- 5) Run validations
- 6) Check if “blockers”, “errors” or “warnings” arise
- 7) After no errors are presented on the reporting of **all datasets** (*Reporter Information, Programmes and Strategies*), **Release** to Data Collection

Steps for Reporting MSFD Article 11 - Data

When all datasets *Reporter Information, Programmes and Strategies* have **no BLOCKER/ERROR**

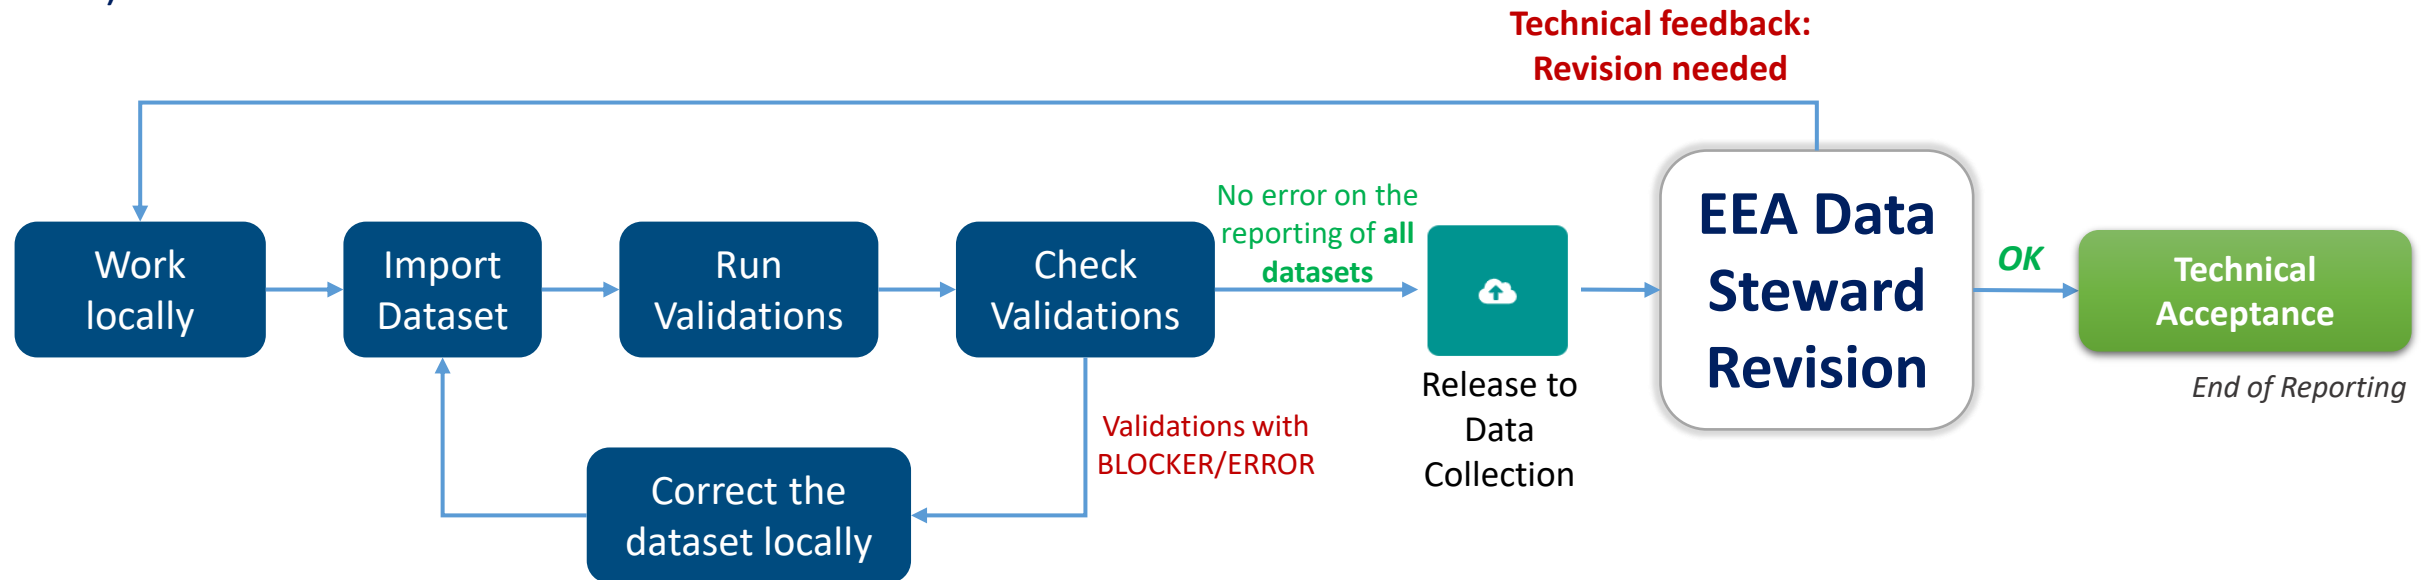

✓ Release to Data Collection

Then, **EEA Data Steward** will make an additional check and:

- a) technically accept the data
- b) send technical feedback

NOTE:

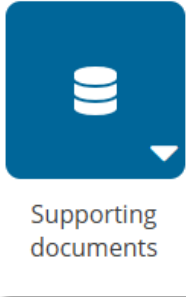

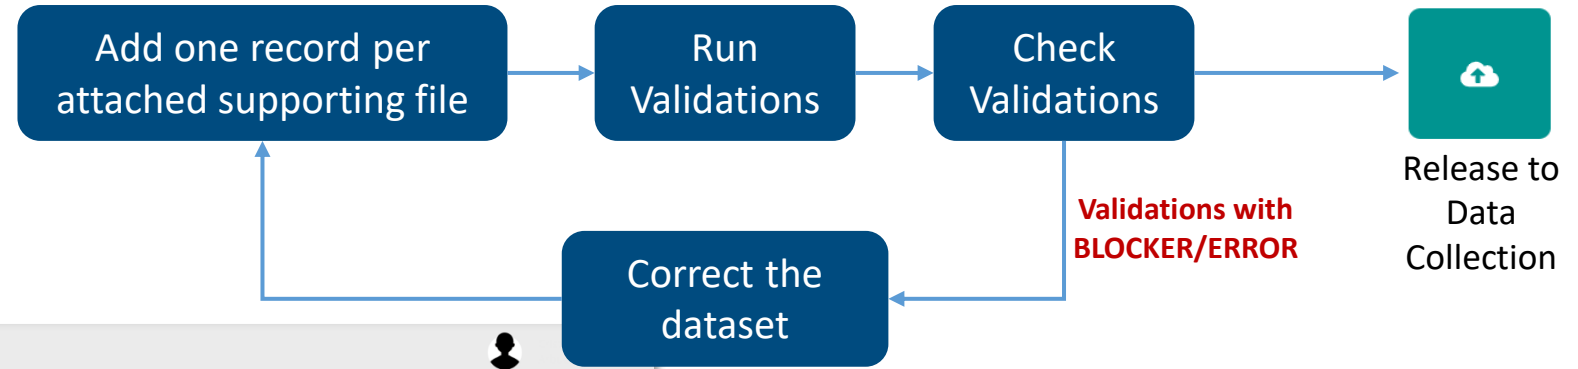

If a Member State plans to work across multiple days, there is no need to release the dataset after each day. The dataset remains stored on the platform and will not be deleted unless the reporter explicitly deletes or replaces it.
