Webinar

“Reporting on MSFD Article 11 Monitoring Programmes”

Updates 2026

Joana Costa (EEA), Daniel Alonso (EEA), Raquel Geijo (Bilbomática), Ana Diez (Bilbomática)

WG DIKE Webinar, 05-03-2026

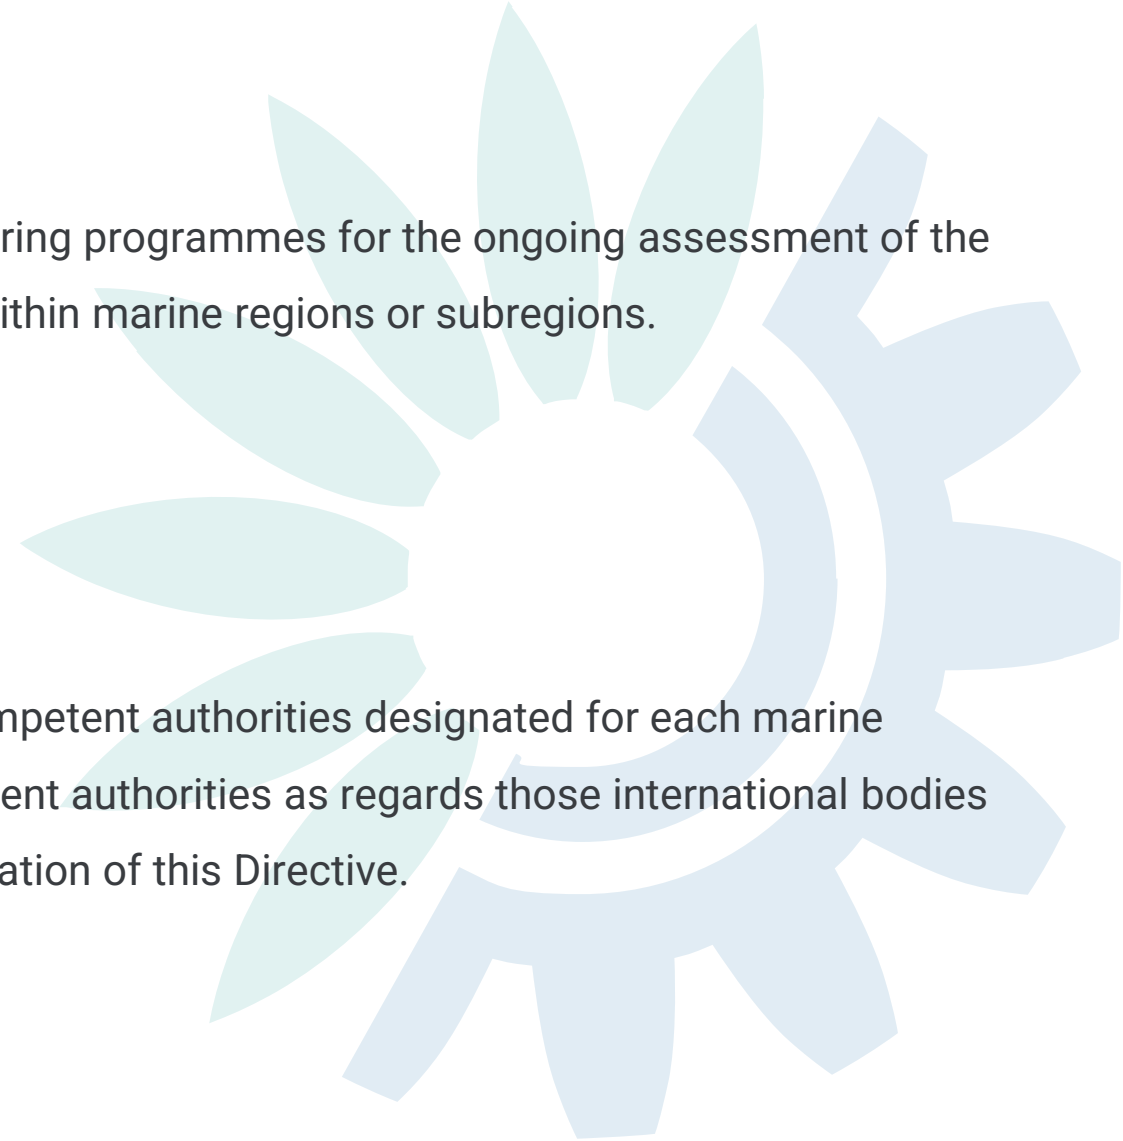

Reporting Obligations

MSFD Article 11 – Monitoring Programmes

- ROD: <https://rod.eionet.europa.eu/obligations/611>
- Member States shall establish and implement coordinated monitoring programmes for the ongoing assessment of the environmental status of their marine waters that are compatible within marine regions or subregions.
- **Next report due: 15/10/2026**

MSFD Article 7 – Competent Authorities

- ROD: <https://rod.eionet.europa.eu/obligations/607>
- Member States shall provide the Commission with a list of the competent authorities designated for each marine region or subregion concerned, together with a list of their competent authorities as regards those international bodies in which they participate and which are relevant for the implementation of this Directive.
- **Continuous reporting**

1) Overview of Reportnet 3 and MSFD Articles 7 and 11 dataflows

2) Demonstration of Article 7 Competent Authorities dataflow

- Walkthrough of Article 7 dataflow in Reportnet 3
- Instructions for Member States on updating and delivering their competent authorities

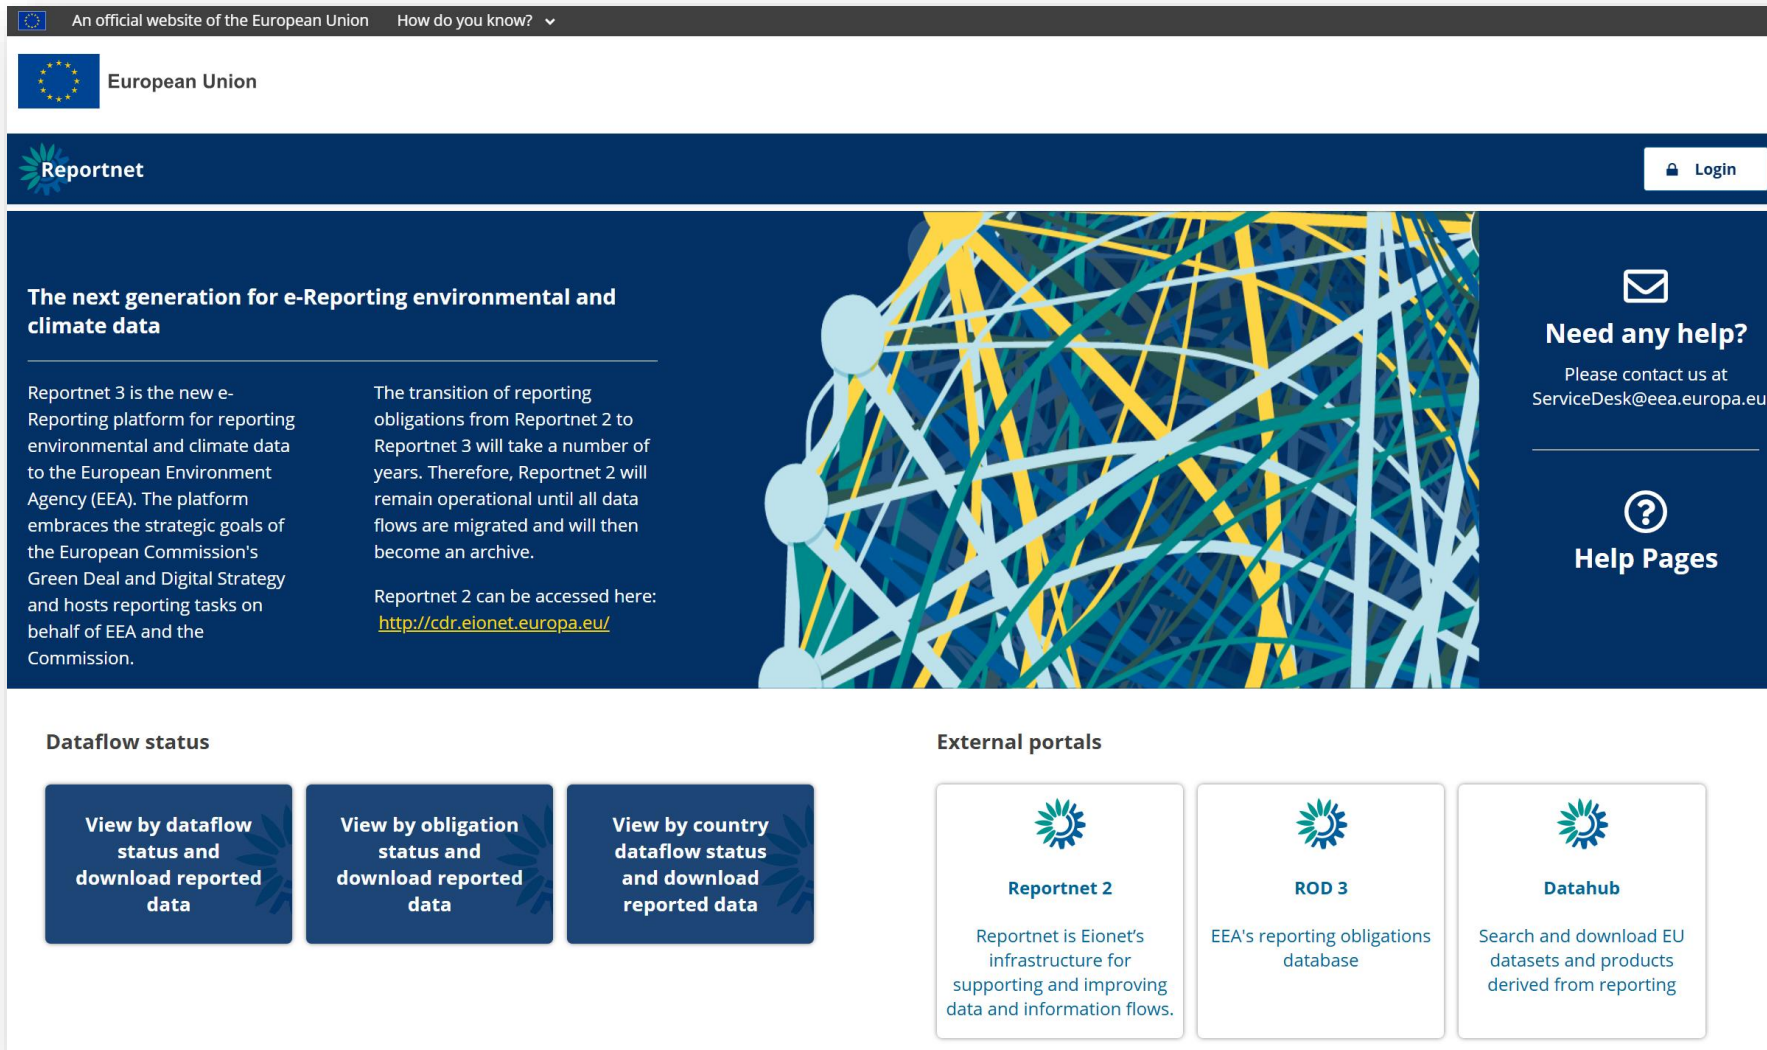

3) Demonstration of Article 11 Monitoring Programmes dataflow

- Step-by-step guidance on preparing and delivering data
- Practical examples illustrating the reporting workflow
- Best practices for efficient reporting

4) Q&A session

Reporting platform – Reportnet 3

The screenshot shows the Reportnet 3 website homepage. At the top, there is a navigation bar with the European Union logo and the text "European Union". Below this is the "Reportnet" logo and a "Login" button. The main content area features a large graphic of interconnected nodes and lines in blue and yellow. The text on the page includes: "The next generation for e-Reporting environmental and climate data", "Reportnet 3 is the new e-Reporting platform for reporting environmental and climate data to the European Environment Agency (EEA). The platform embraces the strategic goals of the European Commission's Green Deal and Digital Strategy and hosts reporting tasks on behalf of EEA and the Commission.", "The transition of reporting obligations from Reportnet 2 to Reportnet 3 will take a number of years. Therefore, Reportnet 2 will remain operational until all data flows are migrated and will then become an archive.", "Reportnet 2 can be accessed here: <http://cdr.eionet.europa.eu/>", "Need any help? Please contact us at ServiceDesk@eea.europa.eu", and "Help Pages". At the bottom, there are two sections: "Dataflow status" with three buttons: "View by dataflow status and download reported data", "View by obligation status and download reported data", and "View by country dataflow status and download reported data"; and "External portals" with three cards: "Reportnet 2" (Reportnet is Eionet's infrastructure for supporting and improving data and information flows.), "ROD 3" (EEA's reporting obligations database), and "Datahub" (Search and download EU datasets and products derived from reporting).

Representative: Portugal

To Whom It May Concern

This is a confirmation of receipt for national data submission under the reporting obligation

MSFD Article 11 - Monitoring programmes - Text reports - Reporting year 2026 - TEST V1

Obligation: MSFD monitoring programmes (Art. 11)
<https://rod.eionet.europa.eu/obligations/611>

This dataflow has a technical acceptance phase following the national data submission. During the technical acceptance phase, the results of the automatic validation will be reviewed and the national data submission will be assessed, which will result in a status of 'technically accepted' or 'correction requested'.

MSFD Article 11 - Monitoring programmes - Text reports - Reporting year 2026 (Big Data)

Supporting documents and text reports for reporting on Article 11 (Monitoring Programmes) of the Marine Strategy Framework Directive

Legal instrument: Marine Strategy Framework Directive
Obligation: MSFD monitoring programmes (Art. 11)

Dataflow status: OPEN

Role: CUSTODIAN

Creation date: 2025-05-16
Delivery date: 2029-12-31

MSFD Article 7 - Competent Authorities (Big Data)

Reporting of Competent Authorities under Article 7 of the Marine Strategy Framework Directive (MSFD)

Legal instrument: Marine Strategy Framework Directive
Obligation: MSFD report on Marine Region or Subregion competent authority or authorities

Dataflow status: OPEN

MSFD Article 7 – Data content

Field name	Description	Type of Information
MSCACode*	A unique EU code for the Competent Authority (CA), created by taking the two-letter ISO Country code followed by the Member State unique identification code (up to 42 characters in total) – e.g. DKMSCA1.	Required
CompetentAuthorityName	Official name of the CA in English.	Required
CompetentAuthorityNameNL	Official name of the CA in national language.	Optional
Acronym	Acronym for the CA (if it exists).	Optional
Street	Street address of CA.	Required
City	City address of CA in English.	Required
CityNL	Name of city (head office of the CA) in national language.	Optional
Postcode	Postcode of CA.	Required
Country	Country of CA in English.	Required

* *MSCACode is the international code which shall follow a specific structure – a QC rule was implemented with the required syntax (two-letter ISO Country code followed by the Member State unique identification code; e.g. DKMSCA1.).*

MSFD Article 7 – Data content

Field name	Description	Type of Information
URL	Website address of the CA.	Required
LegalStatus	Summary text of the legal status of each CA. This should include a brief description of the legal status of the competent authority, or authorities.	Required
Reference	Hyperlink (or reference) to statute, founding treaty or equivalent legal document.	Required
Responsibilities	Summary text of the institutional responsibilities of the CA with a brief description of the legal and administrative responsibilities of the competent authority or authorities and of its role in relation to the marine waters concerned. Where several CA are designated, state clearly the particular responsibility of each, such as their geographical remit and/or responsibilities for particular aspects of the Directive.	Required
Membership	Summary text of the institutional membership, when the competent authority or authorities acts as a coordinating body for other component authorities, a list of these is required together with a summary of the institutional relationships established in order to ensure coordination.	Required
RegionalCoordination	Summary text for regional or sub-regional coordination with a summary of the mechanisms established in order to ensure coordination between Member States whose marine waters fall within the same marine region or sub-region.	Required

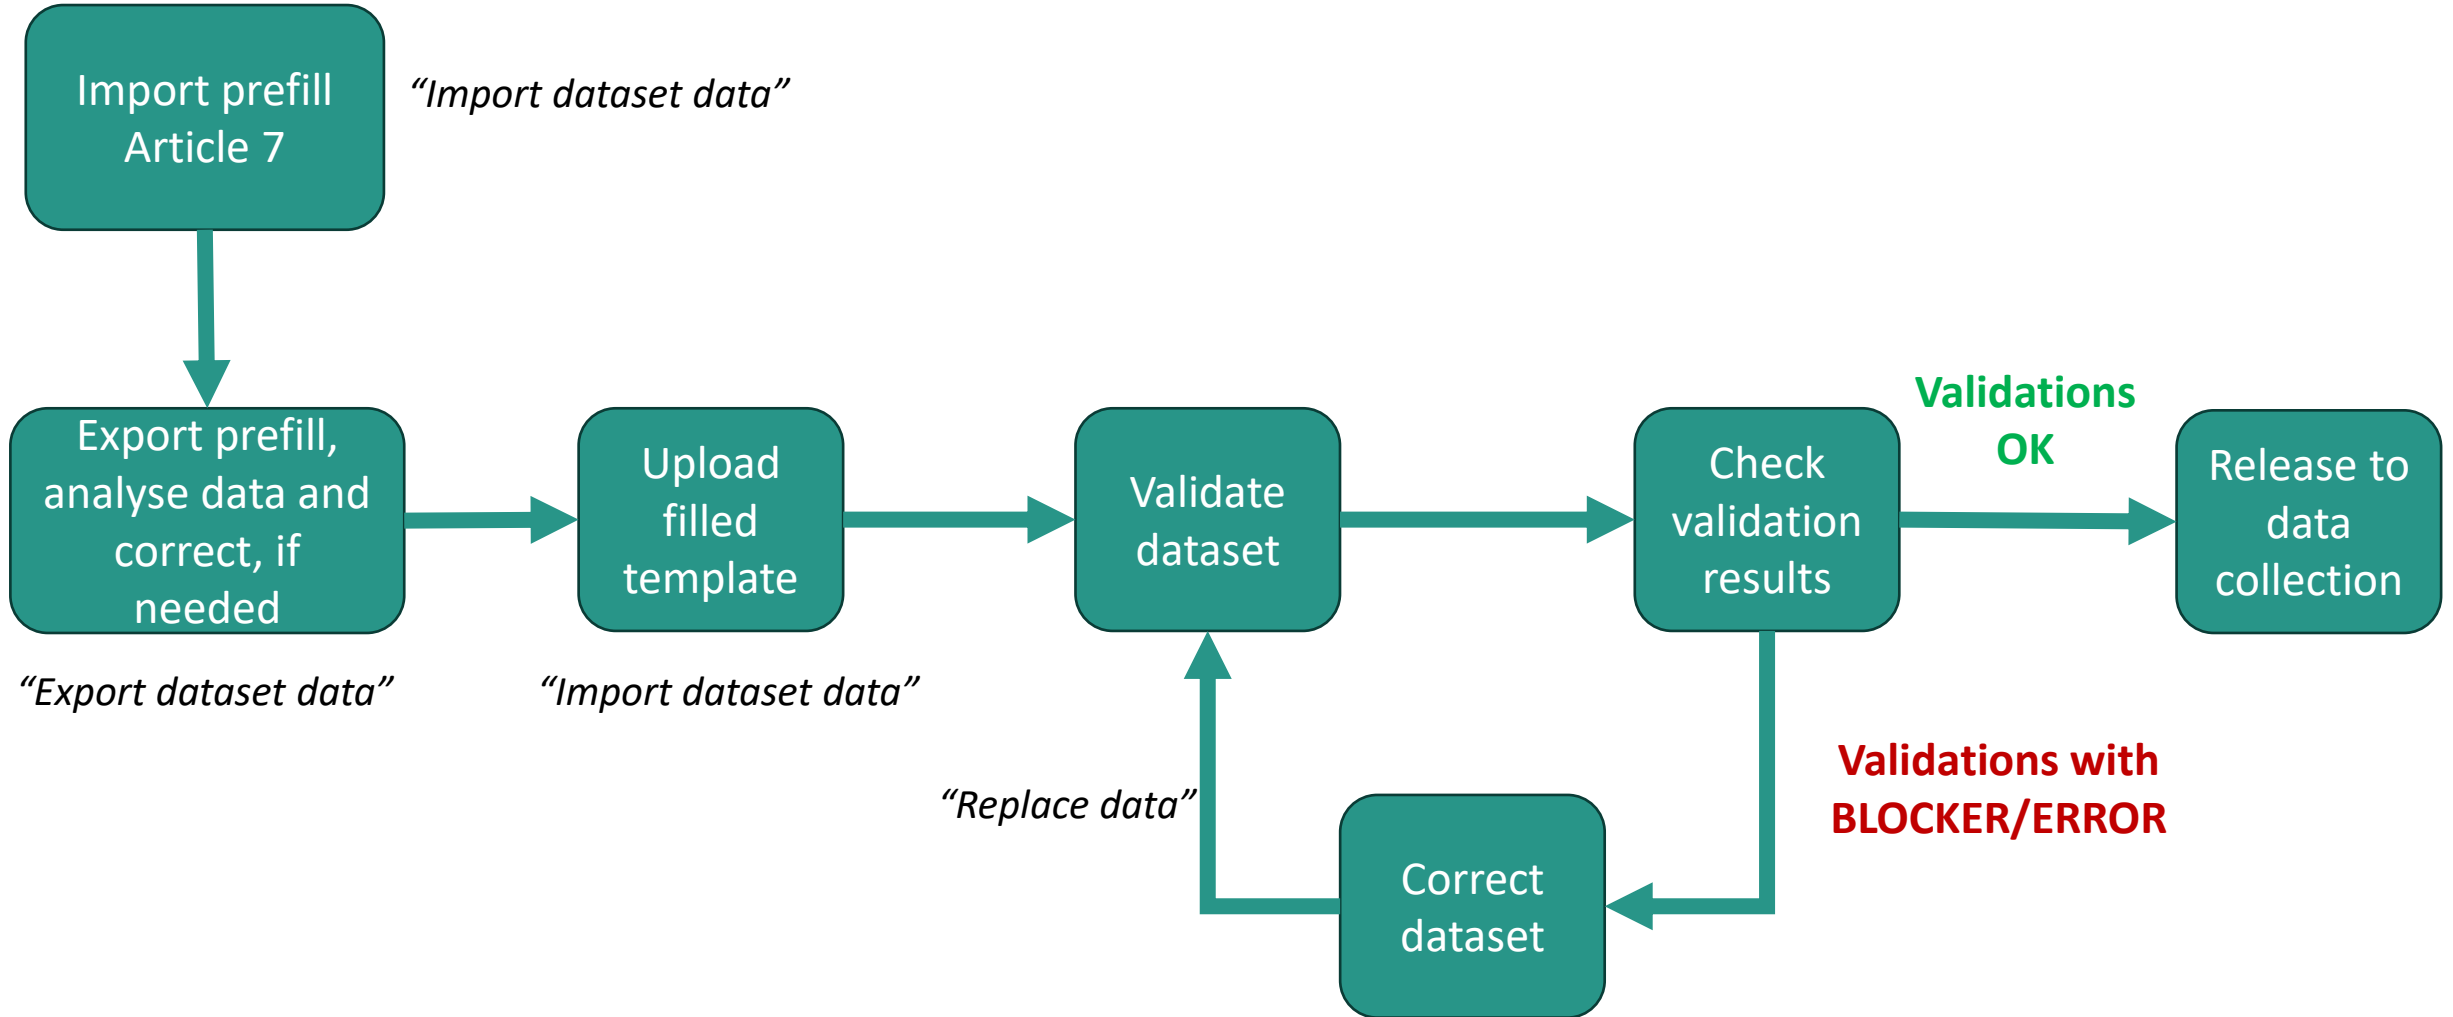

MSFD Article 7 – Data content

- Possible to report multiple competent authorities – one per row
- Field “Auth_CD”, optional field that corresponded to a unique national code for the competent authority, was removed from the data model.

Note on data stored in MSFD database:

- The reporting guidance (from 1st cycle) for Article 7 field population has not been consistently followed across Member States
- Inconsistencies remain in how Article 7 fields are populated
- Further efforts are required to ensure uniform application of the Article 7 data field guidance among all Member States
- **MS are required to confirm or correct the data** and release updated list of competent authorities.
- Re-delivering the data will ensure consistency and harmonisation, as Reportnet 3 applies automatic quality control rules and enables structured technical feedback.

Procedure to confirm or correct MSFD Article 7 data

Steps for Reporting MSFD Article 11 - Data

GENERAL GUIDE

✓ Analyse Reference Lists

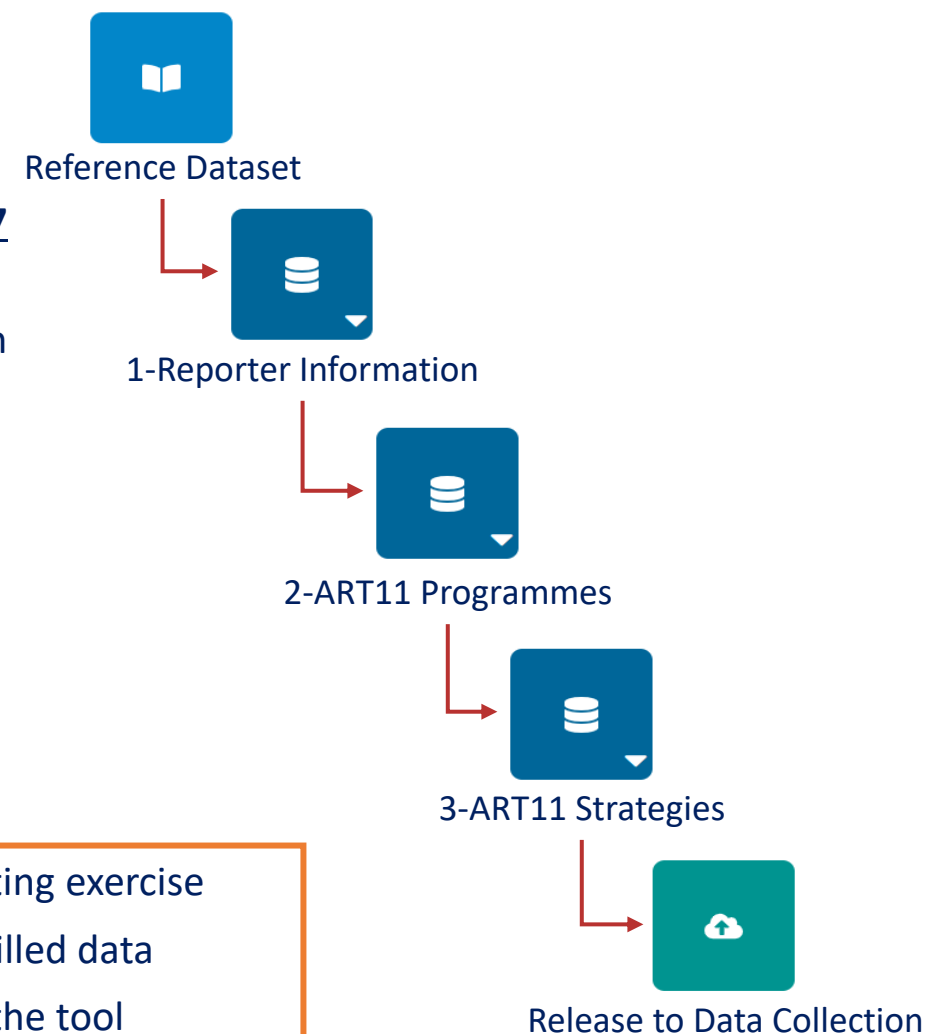

- Confirm, correct or update the list of competent authorities using [MSFD Article 7 Competent Authorities dataflow in Reportnet 3](#).
- If necessary, update or deliver [Marine Reporting Units via Article 4 dataflow in Reportnet 3](#).
- For all other codes, contact [MSFD Helpdesk](#) for updates.

✓ Populate/modify tables in order *(Note that the reference lists' codes may require update)*

- Populate the "1-Reporter Information" data schema
- Populate/modify "2-Art11_Programmes"
- Populate/modify "3-Art11_Strategies"

✓ Release data collection

- Import prefilling from 2020 reporting exercise
- Export populated tables with prefilled data
- Import dataset prepared outside the tool
- Run validations
- Correct issues ("*blockers*", "*errors*" or "*warnings*")

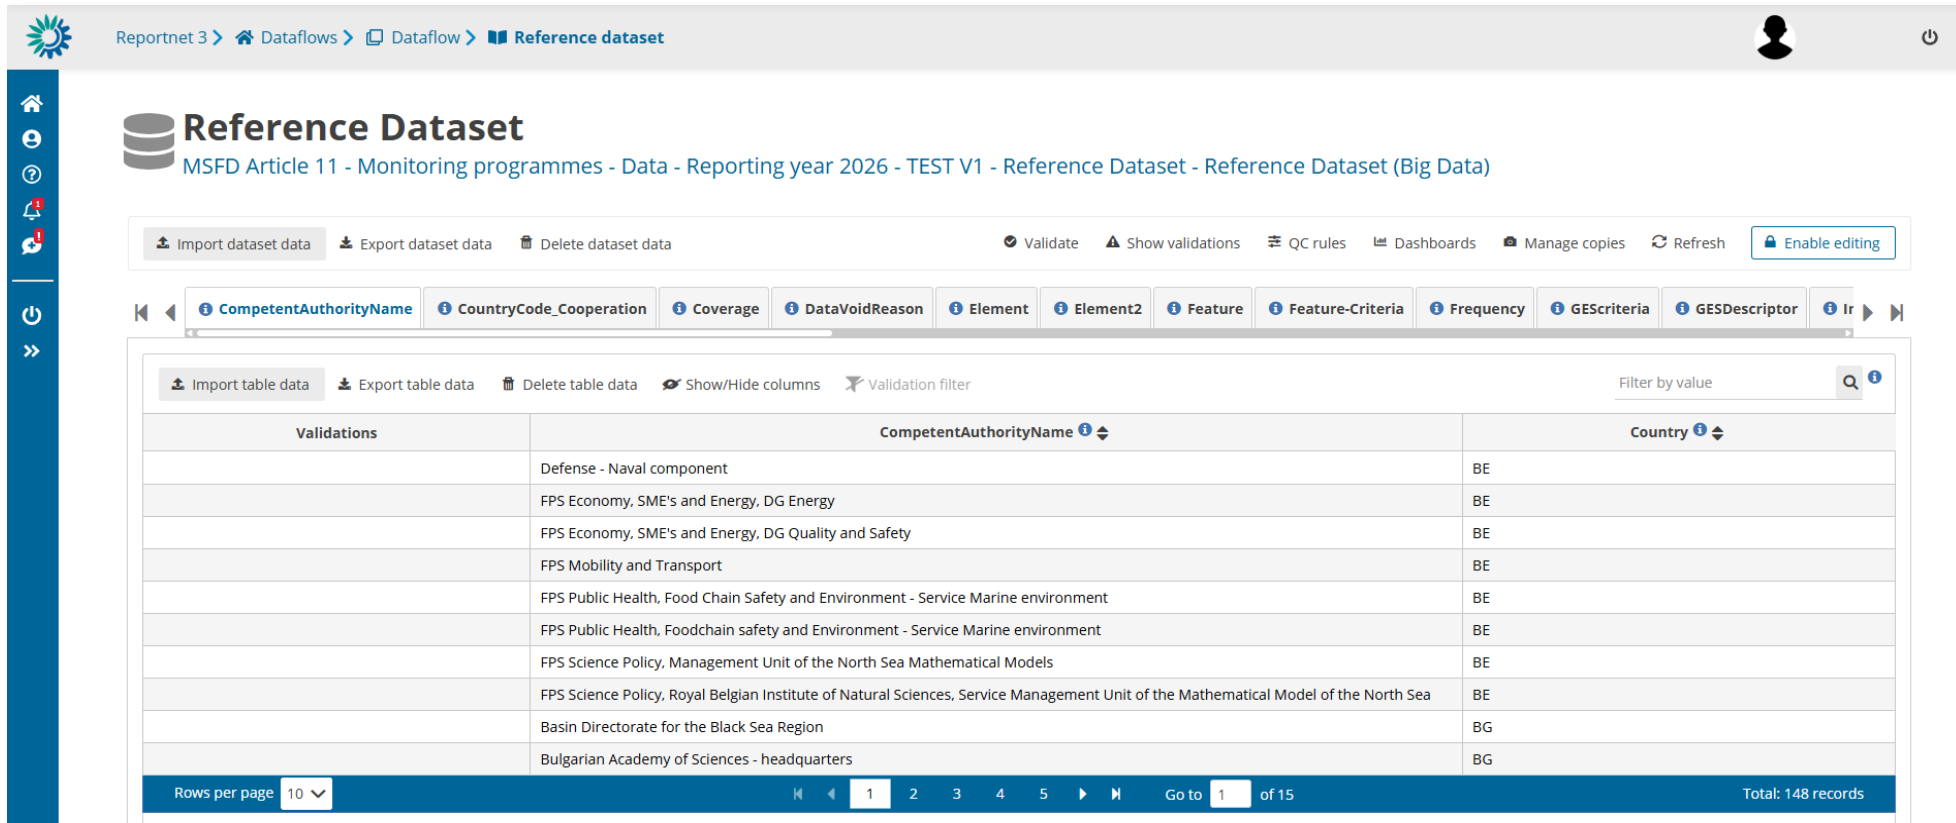

Steps for Reporting MSFD Article 11 - Data

Check Reference Lists first

- Confirm, correct or update the list of competent authorities using the [MSFD Article 7 Competent Authorities dataflow](#) in Reportnet 3.
- If needed, update or deliver [Marine Reporting Units via the Article 4 dataflow](#) in Reportnet 3.
- For any other codes, contact the [MSFD Helpdesk](#) for updates.

The screenshot shows the 'Reference Dataset' interface in Reportnet 3. The breadcrumb navigation is 'Reportnet 3 > Dataflows > Dataflow > Reference dataset'. The main title is 'Reference Dataset' with a subtitle 'MSFD Article 11 - Monitoring programmes - Data - Reporting year 2026 - TEST V1 - Reference Dataset - Reference Dataset (Big Data)'. The interface includes a toolbar with actions like 'Import dataset data', 'Export dataset data', 'Delete dataset data', 'Validate', 'Show validations', 'QC rules', 'Dashboards', 'Manage copies', 'Refresh', and 'Enable editing'. Below the toolbar is a column selection bar with various fields like 'CompetentAuthorityName', 'CountryCode_Cooperation', 'Coverage', etc. The main table displays a list of validation records with columns for 'Validations', 'CompetentAuthorityName', and 'Country'. The table content is as follows:

Validations	CompetentAuthorityName	Country
	Defense - Naval component	BE
	FPS Economy, SME's and Energy, DG Energy	BE
	FPS Economy, SME's and Energy, DG Quality and Safety	BE
	FPS Mobility and Transport	BE
	FPS Public Health, Food Chain Safety and Environment - Service Marine environment	BE
	FPS Public Health, Foodchain safety and Environment - Service Marine environment	BE
	FPS Science Policy, Management Unit of the North Sea Mathematical Models	BE
	FPS Science Policy, Royal Belgian Institute of Natural Sciences, Service Management Unit of the Mathematical Model of the North Sea	BE
	Basin Directorate for the Black Sea Region	BG
	Bulgarian Academy of Sciences - headquarters	BG

At the bottom, there is a pagination bar showing 'Rows per page 10', 'Go to 1 of 15', and 'Total: 148 records'.

Steps for Reporting MSFD Article 11 - Data

Reporter information

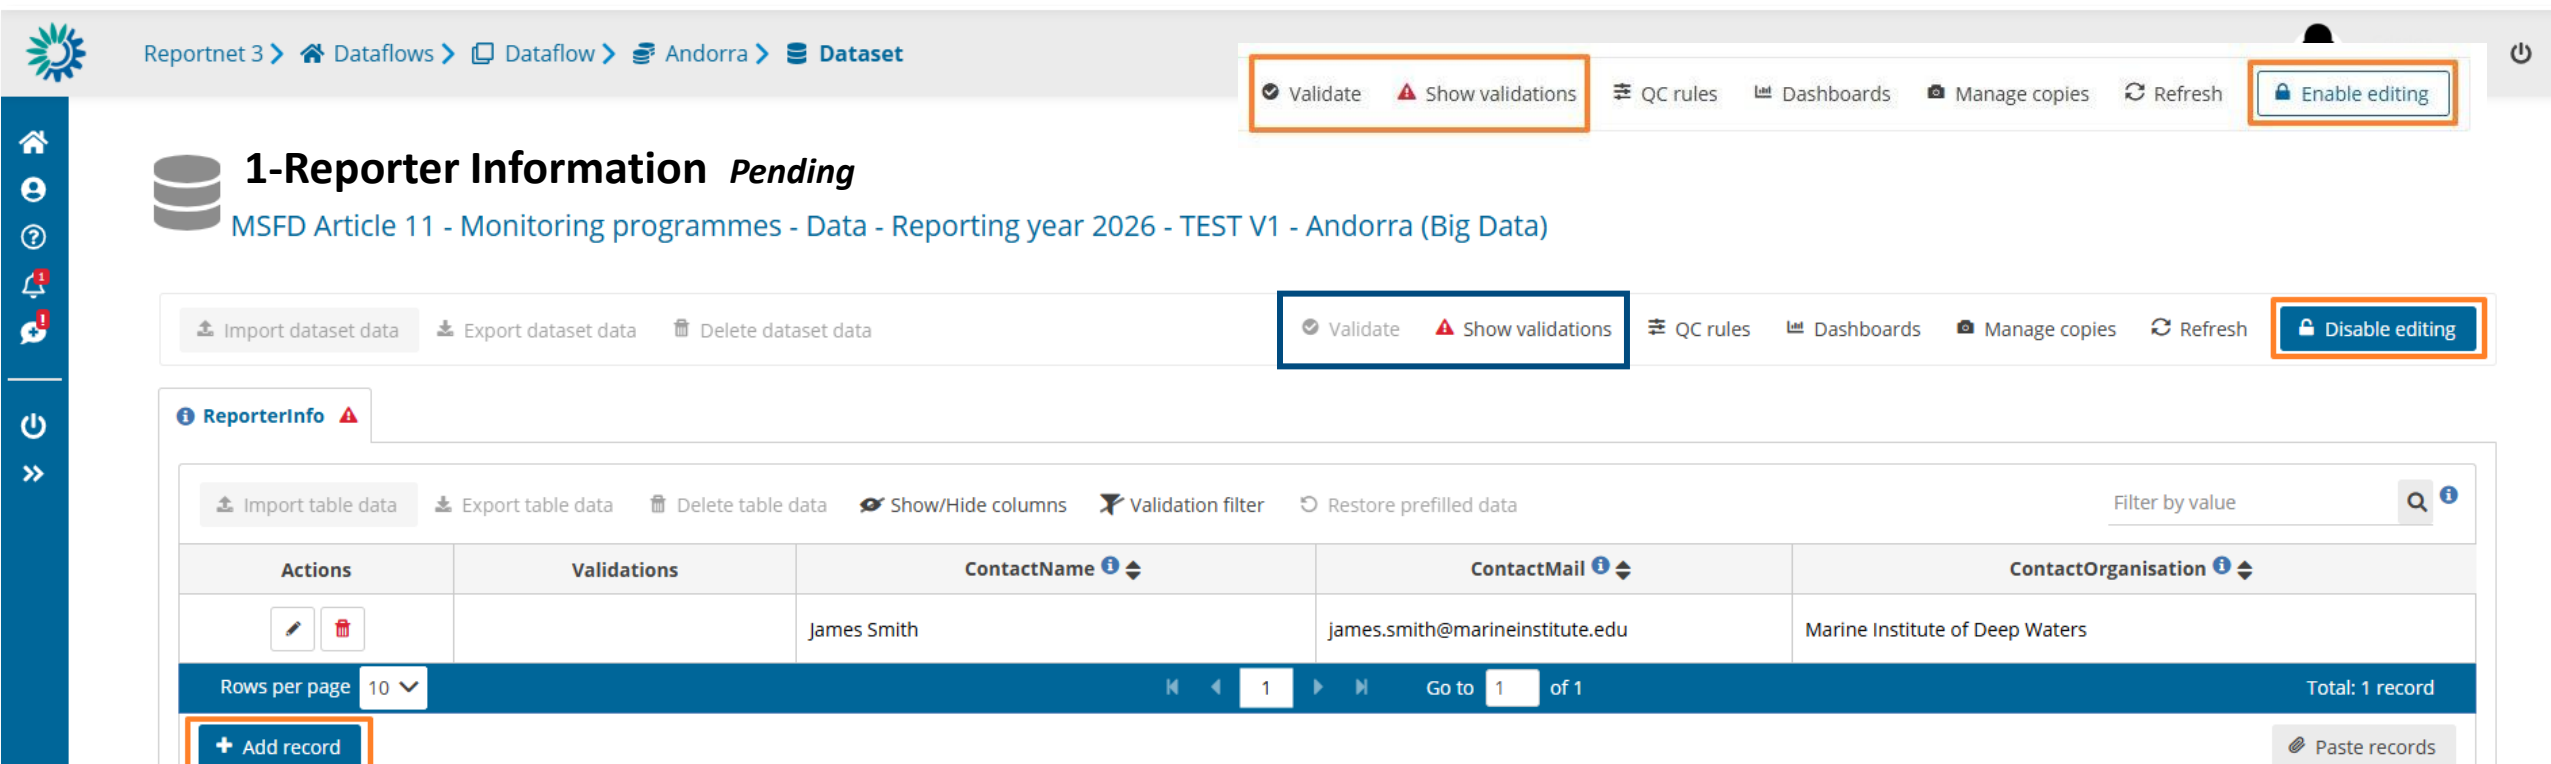

- 1) Enable editing
- 2) Add record with relevant data
- 3) Disable editing
- 4) Validate
- 5) Check if “blockers”, “errors” or “warnings” arise

Validations with BLOCKER/ERROR

- 1) Show validations to check the results
- 2) Enable editing
- 3) Apply corrections
- 4) Disable editing
- 5) Validate
- 6) Check if “blockers”, “errors” or “warnings” arise

1-Reporter Information

The screenshot shows the user interface for reporting MSFD Article 11 data. The breadcrumb trail is: Reportnet 3 > Dataflows > Dataflow > Andorra > Dataset. The main title is "1-Reporter Information Pending" for "MSFD Article 11 - Monitoring programmes - Data - Reporting year 2026 - TEST V1 - Andorra (Big Data)".

Two action bars are visible, each with a "Validate" button, a "Show validations" button, and an "Enable editing" button (top) or "Disable editing" button (bottom). The "Enable editing" button is highlighted with an orange box in the top bar, and the "Disable editing" button is highlighted with an orange box in the bottom bar.

The main data table has the following structure:

Actions	Validations	ContactName	ContactMail	ContactOrganisation
 		James Smith	james.smith@marineinstitute.edu	Marine Institute of Deep Waters

At the bottom left, there is a "+ Add record" button highlighted with an orange box. The bottom right shows "Total: 1 record" and a "Paste records" button.

Steps for Reporting MSFD Article 11 - Data

Suggested workflow to populate/modify tables in the specific order for Article 11

- 1) **Import** prefilling from 2020 reporting exercise
- 2) **Export** to Excel file the prefilling data imported through R3
- 3) **Work locally** on the dataset . It is important to keep the downloaded format, headers and to only edit fields' content
- 4) **Import** *.xlsx file with the updated dataset
- 5) Run **validations**
- 6) Check if “**blockers**”, “**errors**” or “**warnings**” arise
- 7) *After no error on the reporting of **all datasets Reporter Information, Programmes and Strategies, Release to Data Collection***

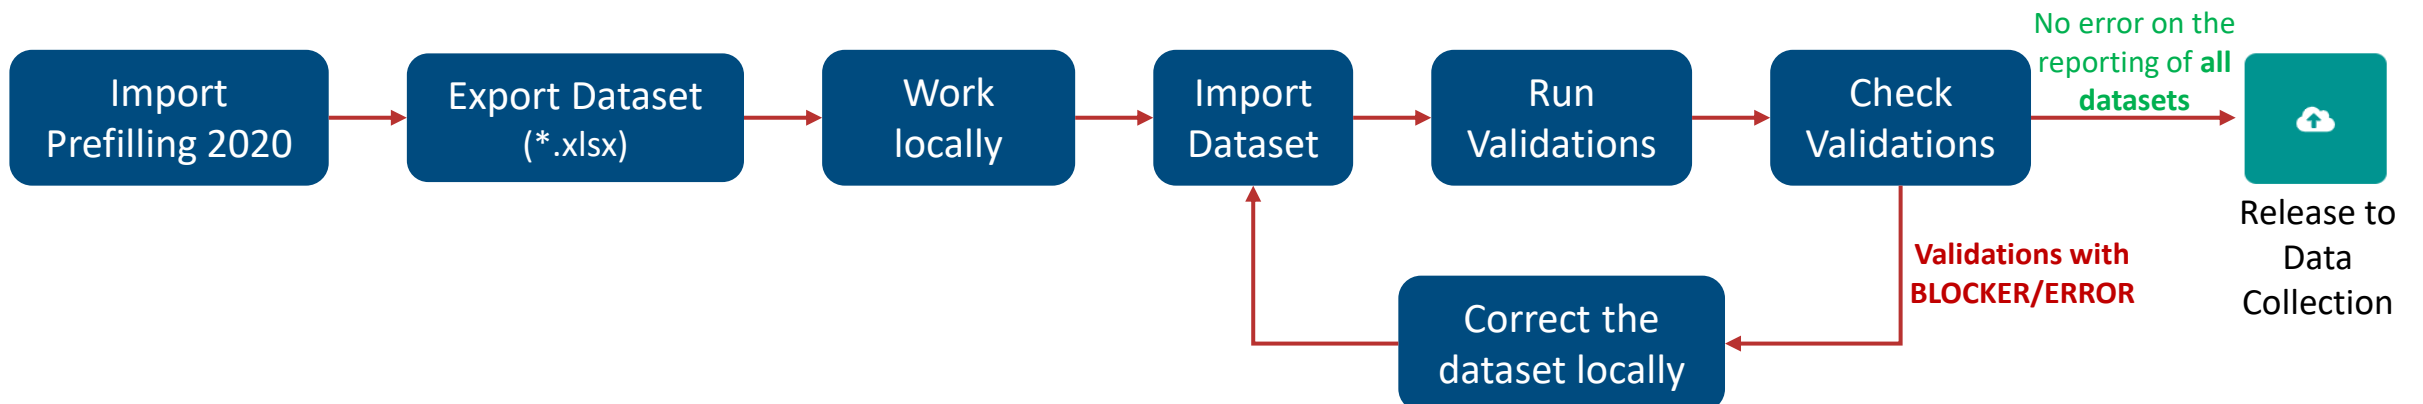

2-ART11 Programmes

3-ART11 Strategies

Note: You can check the results and ongoing actions on the platform via the notification bell.

Steps for Reporting MSFD Article 11 - Data

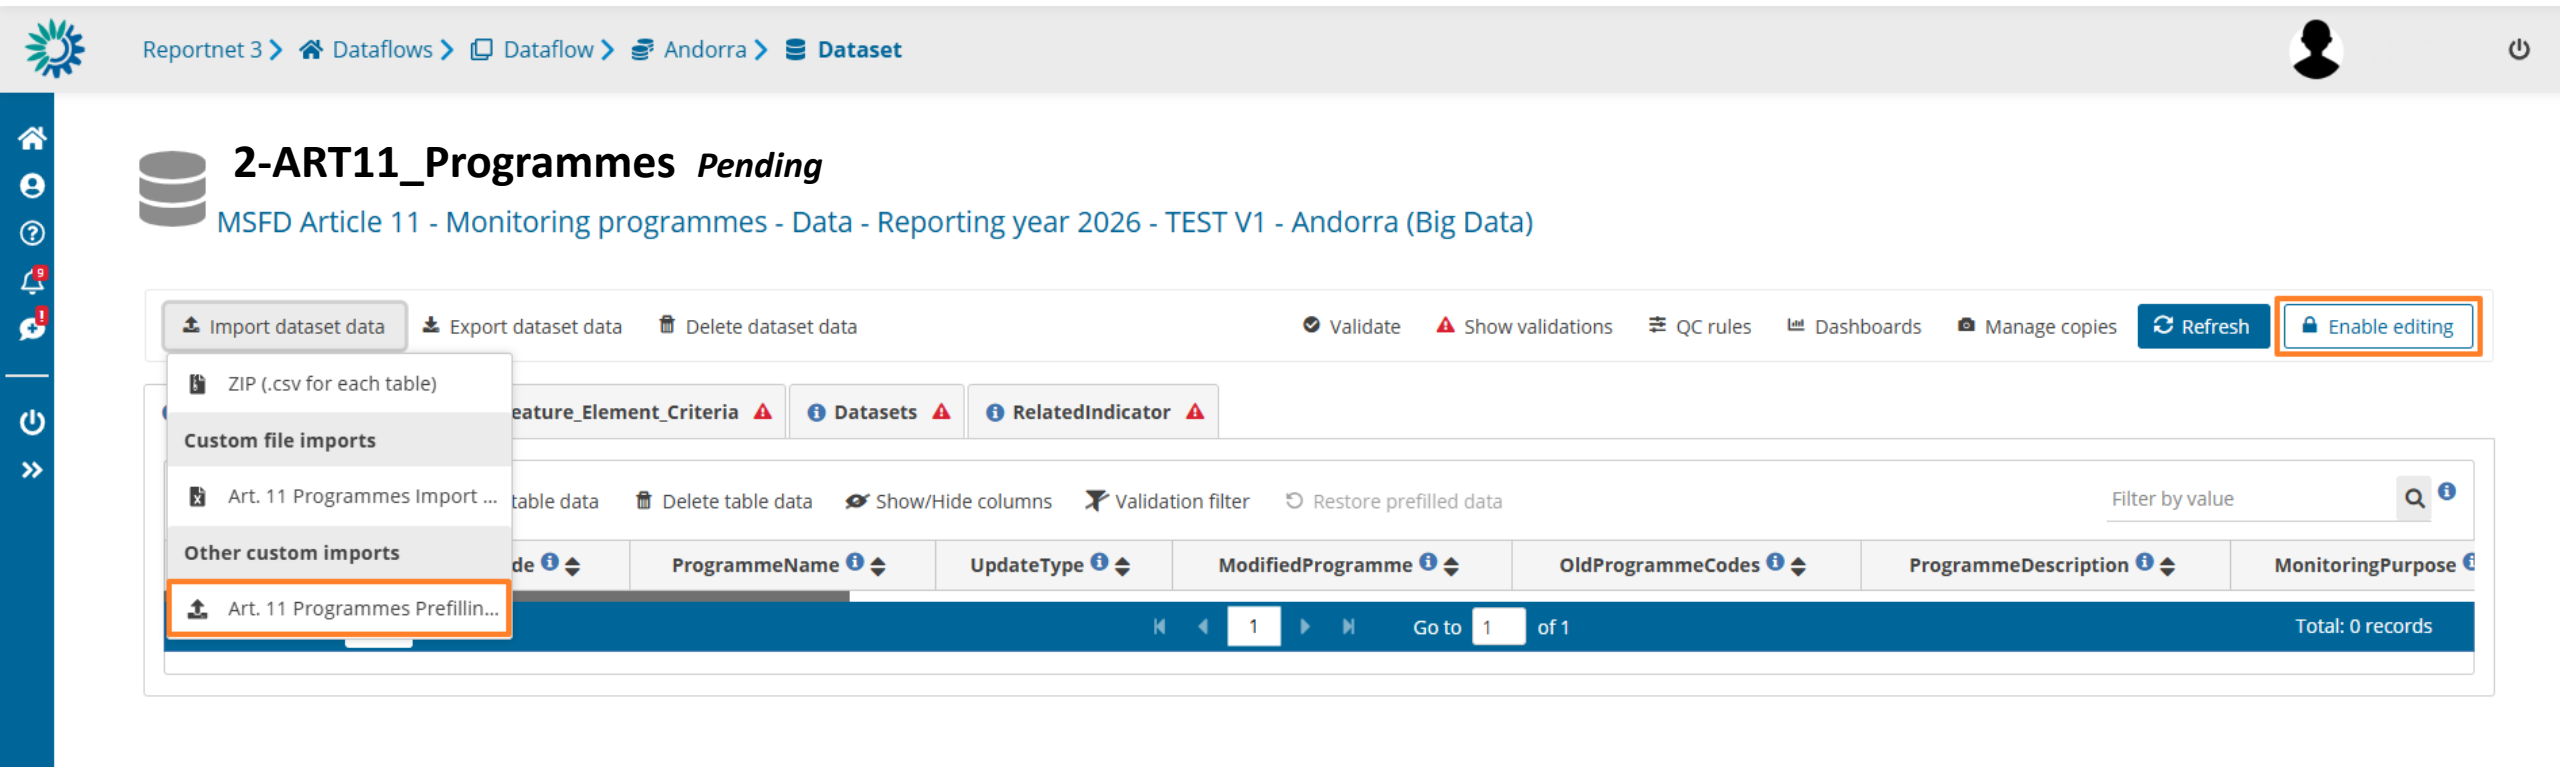

2-ART11 Programmes

Programmes

- 1) Enable editing
- 2) Import dataset data
- 3) Other custom imports – import prefilling
- 4) Refresh

Note: The prefilling option loads the data from the 2020 reporting cycle of Article 11. If you re-import the prefilling, all changes will be overwritten and replaced with the prefilling.

Reportnet 3 > Dataflows > Dataflow > Andorra > Dataset

Total: 0 records					

Steps for Reporting MSFD Article 11 - Data

- 12) Validate - Will run the validations on the uploaded data
- 13) Wait until success messages are shown
- 14) Refresh
- 15) Show validations to check the results

Note: The reported data cannot be released until all blockers and errors have been resolved.

The screenshot displays the '2-ART11 Programmes Pending' interface. At the top left, there is a 'European Union' logo and 'Reportnet 3 > Dataflows >' navigation. A 'Column info' panel shows details for 'TemporalScope' (Header, Description: Start and end date of the programme / Date format YYYY-YYYY, Type: TEXT, Required: checked). The main title is '2-ART11 Programmes Pending' with a subtitle 'MSFD Article 11 - Monitoring programmes - Data - Reporting year 2026 - TEST V1 - Andorra (Big Data)'. A toolbar contains buttons for 'Import dataset data', 'Export dataset data', 'Delete dataset data', 'Validate', 'Show validations', 'QC rules', 'Dashboards', 'Manage copies', 'Refresh', and 'Enable editing'. Below the toolbar, there are tabs for 'MonitoringProgramme', 'Feature_Element_Criteria', 'Datasets', and 'RelatedIndicator'. A 'Validation filter' dropdown menu is open, showing options: 'SELECT ALL', 'CORRECT', 'INFO', 'WARNING', and 'ERROR'. A data table is partially visible with columns: 'Validations', 'ProgrammeCode', 'ProgrammeName', 'UpdateType', 'OldProgrammeCodes', 'ProgrammeDescription', and 'MonitoringPurpos'. The 'ProgrammeDescription' cell contains the text: 'On a regular base the Belgian marine waters will be searched for the presence of non-indigenous species introduced through human activities.' Two notification boxes are overlaid on the right: a green 'SUCCESS' box and a blue 'INFO' box, both stating 'Validation finished at ART11_Programmes (Andorra). Click Refresh to view the data.' The 'SUCCESS' box also includes 'Validation contains canceled tasks'.

Steps for Reporting MSFD Article 11 - Data

Validations with BLOCKER/ERROR

- 16) Work locally on the Excel file to apply corrections
- 17) When ready - import dataset data
- 18) Select the corrected *.xlsx file
- 19) Validate - Will run the validations on the uploaded data
- 20) Wait until success messages are shown
- 21) Refresh
- 22) Show validations to check the results

Note: These steps are only required while the validation shows ERROR or BLOCKER

▲	ANSBE.P17-Contaminants-1-sediment	Contaminants in sediment collected within sampling for OSPAR	Modified from 2014	▲	- The value is not a valid member of the referenced list.	nants-SP18: nants-SP21	▲	This programme aims at investigating contamination by hazardous substances in sediment and relates to the environmental targets D8.2 and D8.3.	Pressures in the marine environment

Steps for Reporting MSFD Article 11 - Data

When all datasets *Reporter Information, Programmes and Strategies* have **no BLOCKER/ERROR**

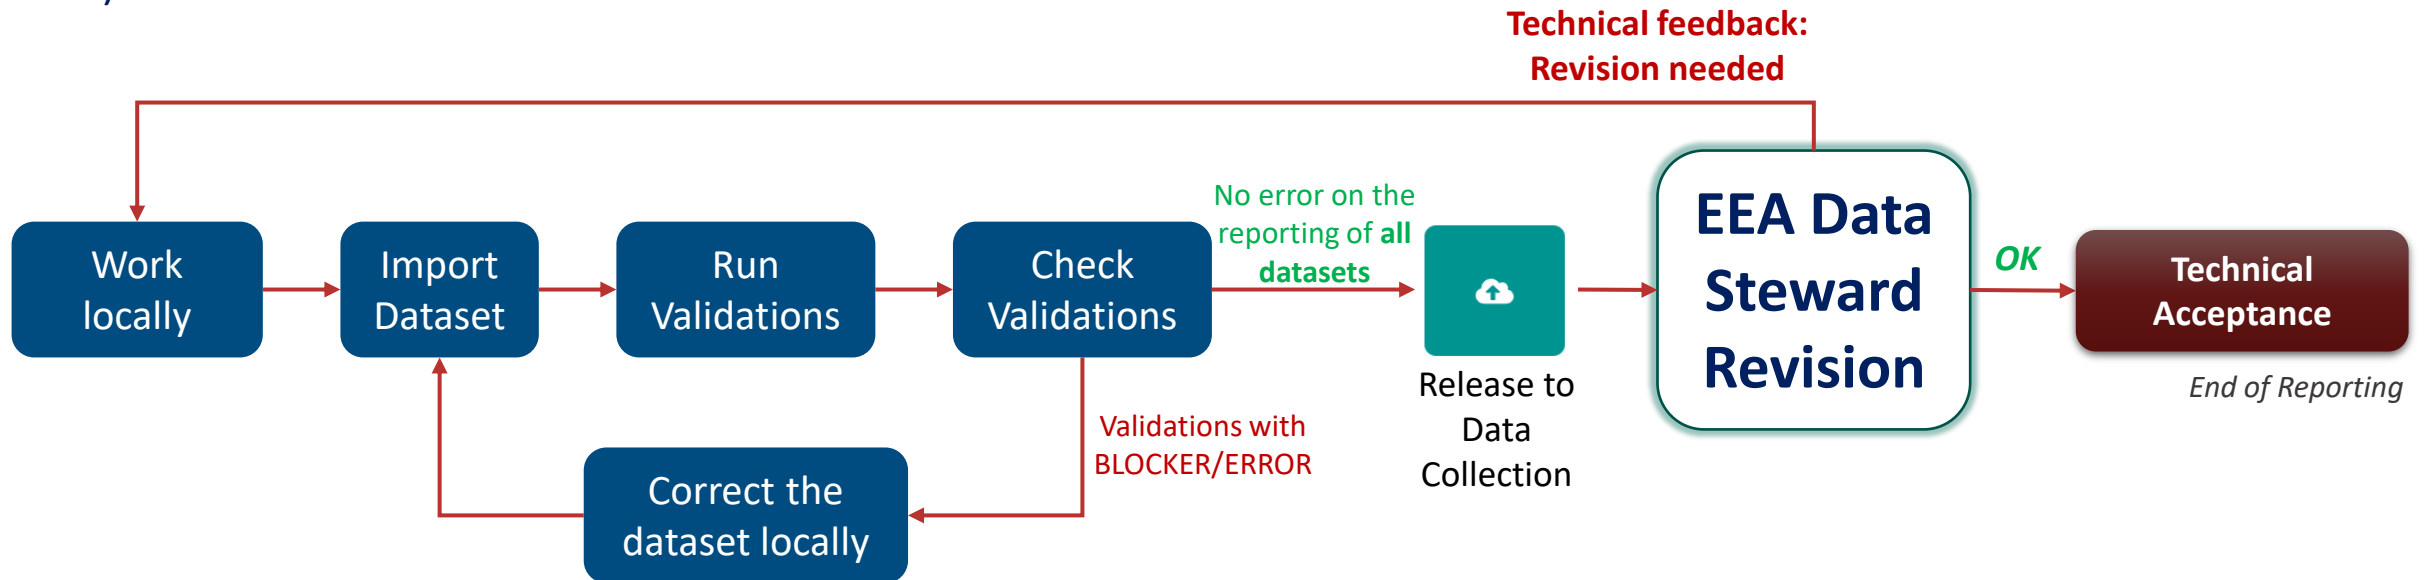

Release to Data Collection

Then, **EEA Data Steward** will make an additional check and:

- technically accept the data
- send technical feedback

NOTE:

If a Member State plans to work across multiple days, there is no need to release the dataset after each day. The dataset remains stored on the platform and will not be deleted unless the reporter explicitly deletes or replaces it.

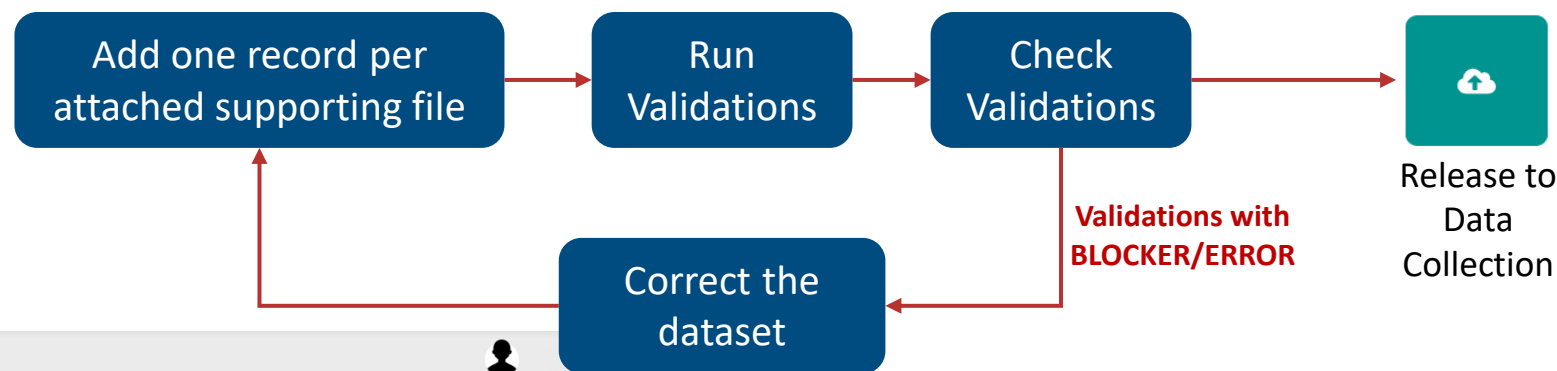

MSFD Article 11 - Monitoring programmes - Text reports

Supporting documents

Text reports

- 1) Enable editing
- 2) Add one record per attached supporting file and fill the relevant data
- 3) Disable editing
- 4) Validate
- 5) Check if “**blockers**”, “**errors**” or “**warnings**” arise
