Cut | Copy | Delete

cc = country code

- Remember to report the correct file under the relevant obligation
- Please be aware of resubmission deadline: 15th March (for emission inventories)

Improved QA on data reporting

Updated workflow

A set of automatic QAs is enabled on the following obligations for both NECD and LRTAP before the release of an envelope

- Emission Inventory
- Adjustments
- Projections
- Gridded data
- LPS

OverviewDraft deliveryEdit propertiesHistory

Draft delivery

1) Your first step is to [upload](#) one or more files into this envelope. You can always interrupt your work and continue your contribution at a later time without losing data.

2) Once you are satisfied with the contribution, you choose [Release envelope](#) and your delivery will be released to the public.

Files in this envelope

<input type="checkbox"/>	 AT_Annex_VII_Adjustments_summary_template_2020_bad.xlsx	AT_Adj_Bad	03 Nov 2020	22.4 KB

Feedback: AutomaticQA result for: AdjustmentNEC

Back to envelope

Subject: AutomaticQA result for: AdjustmentNEC

Posted automatically on: 09 Nov 2020 18:32

Task: Automatic quality assessment

Feedback status: BLOCKER

Feedback message: 3 blocking errors found

EnvelopeCheck validation

1. Conditional checks

Total errors: 7
Blockers: 3
Errors: 0
Warnings: 4

Search: _____

Show context Clear filters Copy selected error Export to csv Print

Error type	Error ID	Element root	Element name	Element value	Error description
WARNING	A2		File	File link	Check if the pollutant in the sheets are valid
WARNING	A2		File	File link	Check if the pollutant in the sheets are valid
WARNING	G2		Sheets	File link	Check if YEAR field is filled
WARNING	G2		Sheets	File link	Check if YEAR field is filled
BLOCKER	G4		Sheet	File link	Check if there are duplicated PKs
BLOCKER	G4		File	File link	Check if there are duplicated PKs
BLOCKER	G5		Sheet	File link	Check if there are errors opening/reading file

Showing 1 to 7 of 7 entries

Document last modified 2020/11/09. [Legal notice](#)

5. A List of QA finding is provided

6. Blocker findings need to be corrected to proceed in the submission

7. Without blocker the reporter can release the envelope

Automatic QA - Goals

- **Improve the quality** of the submission
- Provide **immediate feedback** to reporters on some general characteristic of the submission
- Prevent from reporting *bad* submissions

Automatic QA – Three types of checks

OBLIGATION

- To **prevent to report in the wrong obligation**
- It results into a **blocker**

REPORTING TEMPLATE FORMAT

- To **check the consistency** of the **reporting template** within an obligation
- It may result in either a **blocker** or a **warning**

REPORTING TEMPLATE CONTENT

- Different **checks** on some **content** part of the reporting template
- It may result in either a **blocker** or a **warning**

Obligation checks

ERROR_ID	Obligation
G1_I	Inventory
G1_A	Adjustments
G1_P	Projections
G1_L	LPS
G1_G	Gridded data

These checks run on the envelope and provide a message to the reporter if the reporting template is not reported in the correct reporting obligation.

They prevent the submission to happen. The reporter has to correct the information in the envelope.

Reporting template format checks

ERROR_ID	Obligation	Description
G2_I	Inventory	Checks every single worksheet and results into a blocker if <u>none</u> is in the format of the expected reporting template
G2_A	Adjustments	
G2_P	Projections	
G2_L	LPS	
G2_G	Gridded data	
G3_I	Inventory	Checks every single worksheet and results into a warning if <u>some</u> is not in the format of the expected reporting template
G3_A	Adjustments	
G3_P	Projections	
G3_L	LPS	
G3_G	Gridded data	

Reporting template content checks

ERROR_ID	Description	Type	Obligation
G4	Check if cells B4:B7 are properly filled in	BLOCKER	All
G5	Check if YEAR in B6 is reported	BLOCKER	
G6	Error in opening/reading file due to wrong format	BLOCKER	
G7	Already existing Year (Cell B6) for this ReportingYear (inform that the user is processing a re-submission)	WARNING	
G8	Duplicated information (eg. Country – Year – NFR – Pollutant – Emission) within the same envelope	BLOCKER	

Reporting template content checks

Obligation	ERROR_ID	Description	Type
Inventory	I1	Inform the reporter about the use of old reporting template	WARNING
	I2	Check if NFR codes are changed	BLOCKER
Projections	P1	Check if the reporting worksheets (A-WM,B-WM,A-WaM,B-WaM) are reported without duplication/alteration	BLOCKER
Adjustments	A1	Check consistency and format of Table A, and Table B	BLOCKER
	A2	Check Pollutants coherence	BLOCKER
LPS/Grid	L1	Check consistency of GNFR Codes (from reporting template)	BLOCKER
	L2	Check coordinates within boundaries (Long (+/- 180),Lat (+/-90))	BLOCKER
